

# North Kent Lotus Group

Dear Enthusiast

Not too much to report again this month - it's the time of the year, but we had a great gathering at the Harrow for the annual Christmas meal.

It's too early to judge but there seemed to be a mixed reaction to the food. I must admit that I was a little disappointed with mine - it didn't have the same attention to detail as last year. That said, as always, everybody enjoyed themselves and thanks must go those who provided additional raffle prizes. Even my friend Bernie turned up.

So big thanks to John & Joan, with the help of the rest of the PG, for ensuring everything went smoothly. Thanks also, must go to Julie for helping Howard with his public speaking duties!

As promised from last month, I've included a couple of mystery cars as spotted by Roger & Chris-sie during their continental travels. A bit of fun for Christmas!

Roger also sent me a cartoon he spotted in the Sunday Times. I begged him

to not make me reproduce it here but he's very persuasive.

Ladies, I can provide Roger's full postal address.....

Also held over from last month was the "caption competition" which I incorrectly ascribed to Howard E but which should have been Howard T. His eagle eyed spotted Jon (at least I think that's who it is) on the front cover of the latest Club Lotus magazine.

After the bumper turn-out for the Christmas meal, the Club Night was bound to be a smaller turnout than usual (which it was) and conversation hinged around the "Constitution" - a few rules and regulations which Howard has asked me to include. I must admit that I don't subscribe to much of what's in it (we have enough R&R's in everyday life!) but there we go, that's life. As long as we

continue to have enjoyable club nights and events throughout the year that'll do for me.

John U also asked me to include a subscription form, which he's hoping everyone will fill out - just to keep the records up to date. And don't forget that the subs are now £8 per year. You can send them to John, with your completed form, or see him on the January club night.

Well, here's looking forward to a good 2013 and I hope we all have an enjoyable and peaceful Christmas. Please keep the articles coming and thanks for all your contributions this year.

The next club night is on 9th January, so see you at the Plough.

John

HI  
have produced a prototype 3 eared spinner removal tool which will retail about £35.00 plus P&P. I need to try it on a vehicle in the Kent area and will give a tool free to any body who can help me.

My phone number any time is 07947 712427  
regards  
Lionel
